

# BUSINESS PROFILE

Driving sustainable growth

# Services

*"I have been impressed with the urgency of doing. Knowing is not enough; we must apply. Being willing is not enough; we must do..." - Leonardo Da Vinci*

## Engineering Optimisation

Optimising plant and process operations, focusing on asset management and strategy development

## Reliability Engineering

Implementing reliability engineering principles and practices enhancing asset performance and reducing downtime

## Governance and Compliance

Ensuring adherence to legal and mandatory requirements, conducting audits, assessments and maintaining compliance with industry standards

## Change Management

Managing change through the ADKAR model, driving successful organisational transformations

## Project Management

Leading projects from conception to completion, ensuring adherence to safety, quality and timeline objectives

## People Management

Leading people management initiatives, including training and development programs while fostering a collaborative work environment

## Problem-solving and Analytics

High level of analytical capability and a lateral thinking approach to problem solving

# Experience

DIRECTOR: LEON FOURIE

- **Project Management**
- **Safety, Health, Environmental Management**
- **Quality Management**
- **Operational Risk Management**
- **Process Safety Management**
- **Reliability Engineering**
- **Maintenance and Operational Readiness**
- **Contractor and Contracts Management**
- **Vendor Management**
- **Logistics and Diversity Management**
- **Critical Spare Management**
- **System Optimisation**
- **Standards and Procedures Development**
- **Specialisation in Control and Instrumentation**
- **Electrical Systems, Electronic Design and Fault Finding**
- **Telecommunications**
- **High Speed Manufacturing Machines**
- **People Management**
- **People Training and Development**
